## 1. General Conditions

All information has been compiled with greatest care to ensure its integrity. However, Alghanim Freight reserves the rights to make necessary corrections in the event of any data entry errors.

In tendering the shipment for delivery, the shipper agrees that these Terms and Conditions will apply to the shipment at the time of presentation and its carriage.

Rates apply to general cargo only- excluding Dangerous Goods, perishables, valuables, temperature controlled, and oversized, over length or out of gauge cargo, unless explicitly mentioned in the offer.

Choice of underlying carrier is at Alghanim Freight discretion, unless specific carriers are requested and agreed upon. Carriers, frequency and transit times are subject to change without prior notice due to carrier's capacity and availability. Further, transit times and schedules do not include periods due to extraordinary events such as but not limited to for example waiting time for customs inspections etc.

All cargo has to be within applicable legal limits and subject to carrier's approval.

## 2. Quotations

Quotations of freight shall be subject to mutual acceptance.

Quotations are based on rates and tariffs applying at the time of quotation, however, subject to changes in freight rates and/or surcharges.

Quotations are subject to space and equipment availability and carrier acceptability of cargo at the time of booking / shipping.

Any fee or charge imposed by any government agency, carrier, or other third party above and beyond the enclosed will be billed as per outlay.

Quoted rates are based on either the actual gross weight or volumetric weight of a shipment, whichever is the greater. The volume / weight ratio for air cargo is 6:1 (i.e. 1 cbm = 166.7 kgs). As per IATA standards, the volumetric weight is calculated by multiplying the Length x Width x Height in centimeters and dividing the total by 6,000 (therefore 6,000cm<sup>3</sup> = 1kg).
